

## Return to work post national Coronavirus (COVID-19) lockdown

As the national lockdown draws to an end, South Africans will soon return to work. When employees return to work, it is important for companies to implement appropriate public health measures. These will be in line with the government announced risk-adjusted strategy for economic activity to prevent and reduce the spread of coronavirus (COVID-19) amongst employees, contractors and clients.

We at Thebemed and TYB Momentum are prepared and aligned with government to support efforts within the workplace to curb the spread of the virus and “flatten the curve”. Our purpose remains that of enabling more health, for more South Africans, for less. Health and wellbeing are at the core of our existence, consequently contributing to the fight against coronavirus (COVID-19) is top priority for us.

As an industry-leading workplace wellness provider, Thebemed is therefore, making available to our clients Coronavirus (COVID-19) Return to Work Solutions. This includes:

### Workplace health & safety, our solutions:

### Employee wellbeing, our solutions:

### Why conduct Return to Work Screening?

Protect employee health	Lower healthcare and social costs	Curb the spread of infection	Increase productivity and boost economic growth
-------------------------	-----------------------------------	------------------------------	---

At Thebemed, we appreciate how important the health and wellbeing of your employees are to your company. We share the same values, welcoming the opportunity to provide your company with an obligation-free quotation on the Return to Work Solutions on Coronavirus (COVID-19).
